

Timber Trail - Before 9am and after 3pm, children need to be supervised by a parent or adult and are their responsibility.

Again we ask that you remember to walk down the drive, please dismount bikes and scooters. Children should not be running up and down the embankments, as this is a designated wildlife area and will have plants growing in the spring so please ensure that your child walks on the pathways provided at all times.

We have balls in school, please do not bring your own from home.

Finally, we are really looking forward to working with your child this year and if you ever have any queries or concerns, please do not hesitate to speak to one of the class team before school or after school. If you require a longer meeting we will book an appropriate time upon request.

Thank you for your support,

Mrs Edwards, Mrs Davies and Mrs Bailey

Welcome to Class 6

Class Teacher - Mrs Edwards

Teaching Assistants - Mrs Bailey

for Parents and Carers

Expectations-

In year 6, the children are expected to develop a higher level of independence, in readiness for their transition to secondary school. They are expected to complete all of their work to the best they can, according to their ability and in the time given. Our commitment is to mark work regularly and provide feedback for the children on their progress. This might mean that at times, children's books will be laid out for them during morning challenge time for them to act on specific feedback from marking. If we think your child is producing work which is below their best, they may be asked to repeat or complete work in their own time.

We have high expectations for behaviour and all children will be expected to follow the school and class rules at all times. Children are all expected to take responsibility for their actions and to respect others at all times.

A range of rewards are in place to celebrate achievements which the children know.

A consequence ladder is used to encourage the children to make positive choices at all times.

Punctuality and Attendance

The children need to arrive promptly at 8:50 to given them enough time to complete their morning challenge. All parents are welcome to support their child with the activity but we do need a prompt start on our learning so register will be taken at 9.00 followed by a review of the challenge.

Dress Code

Red, Navy and white.

No football kits for PE

No heeies or shoes with heels.

Label all clothes with your child's name, unclaimed lost property will be sent to charity.

PE Kit - labelled and hair fastened back, no jewellery, white t-shirt, Navy or black shorts, tracksuit bottoms.

Our PE days are Tuesday and Wednesday but we encourage children to bring kit in on Mondays and leave all week to avoid them forgetting kit.

Topic for this term - The Earth in space.

The children will learn about the planets in the solar system, they will learn about the phases of the moon, how we get day and night, how shadows are formed and how we see things. We will look at space travel and the children will work in small teams to build controllable moon buggies. Throughout the half term, our work will include science investigations where the children will learn how to plan a fair test, make scientific predictions and explain results.

The second half term we will look at the Earth in more detail, in particular the damage we cause it and how we can protect it for future generations and will be exploring issues such as global warming and the Greenhouse effect.

Literacy and Numeracy Targets will be set this half term and will be shared with the children, in addition to writing targets the children have a set of non negotiables which they are expected to use whenever they write.

Homework- Children will receive a piece of Literacy and a piece of Numeracy homework per week, which all children are expected to complete and return to school. In addition, we encourage children to read at least three times each week and I will be checking reading diaries each Friday morning.
