

Dear Children and Parents/Carers,

I hope you're all safe and well. The pandemic has changed our lives very significantly, and it's a shame you can't come back to school yet, but it's my job to tell you what it's like here. I'm sure that some of you are looking forward to coming back to school in September but some of you might be a bit nervous. So I'm going to tell you what it's been like for me, since I've been here since June 1st.

Of course things are not the same but that doesn't mean it's worse. The classrooms are set out differently and we wash our hands a lot, but we still get to do things like P.E, Art and Laptop work (and all our normal lessons).

At break times, we stay in our bubbles and take turns each day to go on the playground, the field or the ball court. For instance, today it's our turn on the playground and tomorrow we'll be on the field. The best part of it is being able to see all your friends again.

When you come, you'll have rows of tables in your classroom and there will be two people at a table, facing forward. Class 1, 3 and 5 will go out for break at the same time, while Class 2, 4 and 6 will stay inside, and when the other classes have come in and wash their hands, they will go out to play. This is to make sure that the classrooms that are next to each other won't be using the same bathrooms to wash their hands, and no bubbles will be burst.

I assure you there is nothing to worry about when you come back to school, and I wish you the best of luck for when you start a new school year. Stay safe and have fun. 😊

Kind regards, Rihanna
